AI-POWERED MEDIA INTELLIGENCE

AI-Powered Broadcast Monitoring & Media Intelligence

Ingest. Record. Analyze. Search. Repurpose.

One enterprise platform to capture unlimited live channels, understand every second with AI, and turn broadcast into searchable, actionable intelligence — all in real time.

Unlimited LIVE CHANNELS

Scalable ROLLING ARCHIVE

24 / 7 CONTINUOUS

Watch AI read live broadcast

Analysys recognises faces, brand logos, on-screen text, scenes and locations as content airs — turning raw video into structured, searchable metadata with confidence scoring on every detection.

- Face Recognition
- Voice / Speaker ID
- Logo Detection
- Text / OCR
- Scene Analysis

Live Detection — Processing

Face	Subject A	99.2%
Voice	Speaker ID	96.7%
Logo	Channel brand	97.8%
Text	Breaking news	95.4%
Scene	Location	94.1%

Real-Time — Live ingest & analysis

Multilingual AI — English & Urdu

Cloud or On-Prem — Hybrid deployment

API-First — Integrate anywhere

THE ANALYSYS WORKFLOW

1. **Ingest** — Satellite · IPTV · OTT feeds
2. **Record** — 24/7 multi-channel capture
3. **Analyze** — AI detection & transcription
4. **Search** — Full-text · time · entity
5. **Repurpose** — Clip · report · export

∞	24/7	99.9%	99.9%
CHANNELS SUPPORTED	CONTINUOUS RECORDING	DETECTION ACCURACY*	UPTIME GUARANTEE

One platform. Every capability.

Everything you need for professional broadcast monitoring, AI analysis, recording, search and content management — engineered into four integrated pillars.

PILLAR 01
Capture & Record

- **Multi-Channel Recording** — Simultaneous 24/7 capture, auto metadata.
- **Scheduled Recording** — Calendar & recurring capture patterns.
- **Smart Stream Priority** — Auto-selects most stable feed source.
- **Scalable Rolling Archive** — Months of storage, optimised compression.

PILLAR 02
AI Media Intelligence

- **ContentSense AI** — Scene, logo & face detection.
- **Speech-to-Text** — Multilingual EN & Urdu.
- **On-Screen OCR** — Reads tickers, headlines, captions.
- **Ad / TVC Fingerprinting** — Audio-fingerprint ad detection.
- **Sentiment & Topics** — Tone & theme scoring per clip.
- **Real-Time Alerts** — Keyword, brand & event triggers.

PILLAR 03
Search · Analyze · Report

- **Comprehensive Search** — Full-text, date/time & combined.
- **Analytics Dashboard** — Viewership & usage insights.
- **Share of Voice** — Competitive & coverage intelligence.
- **Customized Reporting** — By channel group or by date.
- **TVC Campaign Tracking** — 99.9% accurate airtime & frequency.
- **Proof of Performance** — Verifiable airing evidence.

PILLAR 04
Repurpose & Deploy

- **InstaClip Creation** — Create, edit & batch-organise clips.
- **Export & Distribution** — Multi-format with direct publishing.
- **REST API & Webhooks** — Integrate with any system.
- **Hybrid Deployment** — Cloud or on-premises, web + mobile.

SELECT REFERENCES

Trusted by leading organizations across multiple sectors in Pakistan.

Armed Forces
Defense & security
